

Millionaires' Club

The award is broken into four sections:

Bronze -- 50,000 words

Silver -- 250,000 words

Gold -- 500,000 words

The Millionaires' Club is reached when a child reads 1,000,000 words.

Keeping a log of words read:

To do this count up the words on an average page and multiply it by the number of pages read, e.g. if the average page has 200 words and the student reads 10 pages the total of 2000 would be entered on the Millionaires's Club log for that day and initialled by the parent or teacher.

Alternatively the student can wait until he/she has finished reading the entire book and then enter the amount.

Awards are celebrated by certificates and a photo in the newsletter, and when a student reaches one million words, their photo is placed onto the Millionaires' Club display board in the Library.
